

STEINER HUNTING BINOCULARS

Beretta Australia proudly introduces Steiner Binoculars. German quality and absolute clarity for an extraordinary experience, even in low light conditions. Steiner offers two specialised lines of hunting binoculars: Nighthunter^{XP} for expert users and Ranger Pro for professionals.

STEINER NIGHTHUNTER^{XP} BINOCULARS

Nighthunter^{XP} are extremely rugged with the fibre-reinforced Makrolon housing guarantees stability and resistance to breakage. The new NBR-Longlife rubber armouring is resistant to both oils and acids.

The improved High-Definition XP-Optics ensure optimum brightness, highest contrast and superb sharpness from edge to edge. Steiner Nano-protection provides the external surfaces of the eye-pieces and objective lenses with outstanding water and dirt resistant properties.

Rain, snow and moisture simply disappear from your field of view. The ClicLoc eye-cup system allows the user to change the eye-cups with a choice of three different eye-cup forms.

NIGHTHUNTER^{XP} PRO RANGER

The Binocular-Specialists!

STEINER RANGER PRO BINOCULARS

Ranger Pro models, with their unique close-up range, are incredibly robust, thanks to a housing made of extremely tough plastic.

The innovative design of the Ranger Pro series is bound to impress with its smart styling and superlative handling features such as ergonomic thumb grips and NBR rubber armouring. This features a patterned, non slip surface. This ensures these binoculars are especially secure and comfortable to use, even over long periods.

Their superb optics combined with high luminosity mean that they offer all the features of professional binoculars for difficult light conditions, at a really accessible price. Steiner Ranger Pro binoculars offer incredible value for money.
